# **SAFETY DATA SHEET**

Emgard® 2805 Synthetic Automatic Transmission Fluid

GHS product identifier	: Emgard® 2805 Synthetic Automatic Transmission Fluid
Synonyms	: Automatic Transmission Fluid
Material uses	: Synthetic Transmission Fluid
Code	: 632494001
Supplier's details	: CITGO Petroleum Corporation P.O. Box 4689 Houston, TX 77210 sdsvend@citgo.com
Emergency telephone number (with hours of operation)	: Technical Contact: (800) 248-4684 Medical Emergency: (832) 486-4700 CHEMTREC Emergency: (800) 424-9300 (United States Only)

# Section 2. Hazards identification

OSHA/HCS status	: While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product.
Classification of the substance or mixture	: Not classified.
GHS label elements	
Signal word	: No signal word.
Hazard statements	: No known significant effects or critical hazards.
Precautionary statements	
General	: Avoid contact with eyes, skin and clothing. Thoroughly wash exposed areas and clothing with soap and water. IF IN EYES: Rinse cautiously with water for several minutes. IF SWALLOWED: Do not induce vomiting. If you feel unwell, seek medical attention and show the label when possible. Keep out of reach of children.
Prevention	: Not applicable.
Response	: Not applicable.
Storage	: Store in a dry place and/or in closed container. Store in accordance with all local, regional, national and international regulations.
Disposal	<ul> <li>Dispose of contents and container in accordance with all local, regional, national and international regulations.</li> </ul>
Hazards not otherwise classified	: None known.

### Section 3. Composition/information on ingredients

Substance/mixture	: Substance
Other means of identification	: Automatic Transmission Fluid

#### **CAS number/other identifiers**

CAS number	: Not available.
------------	------------------

### Section 3. Composition/information on ingredients

Ingredient name	%	CAS number
Emgard® 2805 Synthetic Automatic Transmission Fluid	>99	-

Any concentration shown as a range is to protect confidentiality or is due to process variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

#### Section 4. First aid measures

#### **Description of necessary first aid measures**

Eye contact	<ul> <li>Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.</li> </ul>
Inhalation	: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.
Skin contact	<ul> <li>Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.</li> </ul>
Ingestion	: Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

#### Most important symptoms/effects, acute and delayed

Potential acute health effect	<u>cts</u>	
Eye contact	:	No known significant effects or critical hazards.
Inhalation	1	No known significant effects or critical hazards.
Skin contact	1	No known significant effects or critical hazards.
Ingestion	1	No known significant effects or critical hazards.
Over-exposure signs/symp	oton	<u>15</u>
Eye contact	1	No specific data.
Inhalation	:	No specific data.
Skin contact	1	No specific data.
Ingestion	:	No specific data.
Indication of immediate med	dica	l attention and special treatment needed, if necessary
Notes to physician	1	Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
Specific treatments	1	Treat symptomatically and supportively.
Protection of first-aiders	:	No action shall be taken involving any personal risk or without suitable training.

#### See toxicological information (Section 11)

### Section 5. Fire-fighting measures

Extinguishing media					
Suitable extinguishing media	: Use an e	xtinguishing agent suitable	for the surrounding f	ire.	
Unsuitable extinguishing media	: None kno	own.			
Specific hazards arising from the chemical	: In a fire o	or if heated, a pressure incre	ease will occur and th	ne container may burst.	
Date of issue/Date of revision	: 4/8/2021	Date of previous issue	: 12/19/2018	Version : 2	2/9

Date of issue/Date of revision	: 4/8/2021	Date of previous issue	: 12/19/2018	Version : 2	

### Section 5. Fire-fighting measures

Hazardous thermal decomposition products	: No specific data.
Special protective actions for fire-fighters	: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
Special protective equipment for fire-fighters	: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

# Section 6. Accidental release measures

Personal precautions, protec	tive equipment and emergency procedures
For non-emergency personnel	No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment.
For emergency responders	: If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".
Environmental precautions	: Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
Methods and materials for co	ntainment and cleaning up
Small spill	: Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
Large spill	: Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

# Section 7. Handling and storage

#### Precautions for safe handling

Protective measures Advice on general occupational hygiene		Put on appropriate personal protective equipment (see Section 8). Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
Conditions for safe storage, including any incompatibilities	:	Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use. Bulk Storage Conditions: Maintain all storage tanks in accordance with applicable regulations. Use necessary controls to monitor tank inventories. Inspect all storage tanks on a periodic basis. Test tanks and associated piping for tightness. Maintain the automatic leak detection devices to assure proper working condition.

# Section 8. Exposure controls/personal protection

#### **Control parameters**

#### **Occupational exposure limits**

Ingredient name		Exposure limits		
None.				
Appropriate engineering controls	: Good general ventilation s contaminants.	hould be sufficient to control worker exposure to airborne		
Environmental exposure controls	they comply with the requi cases, vapor controls, filte	Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, vapor controls, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.		
Individual protection meas	ures			
Hygiene measures	eating, smoking and using Appropriate techniques sh	In the lavatory and at the end of the working period. In the lavatory and at the end of the working period. In the used to remove potentially contaminated clothing. Ing before reusing. Ensure that eyewash stations and safety vorkstation location.		
Eye/face protection	industrial settings. If conta the assessment indicates Safety eyewear complying assessment indicates this	afety glasses equipped with side shields are recommended as minimum protection in dustrial settings. If contact is possible, the following protection should be worn, unless are assessment indicates a higher degree of protection: chemical splash goggles. afety eyewear complying with an approved standard should be used when a risk ssessment indicates this is necessary to avoid exposure to liquid splashes, mists, ases or dusts. If inhalation hazards exist, a full-face respirator may be required istead.		
Skin protection				
Hand protection		complying with an approved standard should be worn at all nical products if a risk assessment indicates this is necessary		
Body protection		ment for the body should be selected based on the task being wolved and should be approved by a specialist before		
Other skin protection	measures should be selec	uid. Appropriate footwear and any additional skin protection ted based on the task being performed and the risks involved y a specialist before handling this product. Leather boots are ntact.		
Respiratory protection	supplied-air respirator con indicates this is necessary	vapors, mists or dusts. Use a properly fitted, air-purifying or nplying with an approved standard if a risk assessment . Respirator selection must be based on known or anticipated rds of the product and the safe working limits of the selected		

# Section 9. Physical and chemical properties

Appearance

Physical state	: Liquid.					
Color	: Red.					
Odor	: Slight	: Slight				
рН	: Not availa	: Not available.				
Boiling point	: Not availa	: Not available.				
Flash point	: Open cup: 240°C (464°F) [Cleveland.]					
Lower and upper explosive (flammable) limits	: Not available.					
Vapor pressure	: Not availa	able.				
Vapor density	: Not available.					
Relative density	: 0.85					
Date of issue/Date of revision	: 4/8/2021	Date of previous issue	: 12/19/2018	Version	:2	4/9

### Section 9. Physical and chemical properties

Density Ibs/gal	: Estimated 7.09 lbs/gal
Density gm/cm <sup>3</sup>	: Not available.
Gravity, °API	: Estimated 35 @ 60 F
Flow time (ISO 2431)	: Not available.
Viscosity	: Kinematic (40°C (104°F)): 0.389 cm <sup>2</sup> /s (38.9 cSt)
Viscosity SUS	: Estimated 180 SUS @104 F

#### Section 10. Stability and reactivity

Reactivity	: Not expected to be Explosive, Self-Reactive, Self-Heating, or an Organic Peroxide under US GHS Definition(s).
Chemical stability	: The product is stable.
Possibility of hazardous reactions	: Under normal conditions of storage and use, hazardous reactions will not occur.
Conditions to avoid	: No specific data.
Incompatible materials	: No specific data.
Hazardous decomposition products	: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

### Section 11. Toxicological information

#### Information on toxicological effects

#### Acute toxicity **Product/ingredient name** Result **Species** Dose Exposure Emgard® 2805 Synthetic LD50 Dermal Rat >2000 mg/kg Automatic Transmission Fluid Rat >5000 mg/kg LD50 Oral **Conclusion/Summary** : No additional information. General Carcinogenicity	: No known significant effects or critical hazards.
General Carcinogenicity Mutagenicity	<ul><li>No known significant effects or critical hazards.</li><li>No known significant effects or critical hazards.</li></ul>

### Section 12. Ecological information

<u>Toxicity</u>		
Not available.		
Conclusion/Summary	: Not available.	
Persistence and degradabilit	<u>'</u>	
<b>Conclusion/Summary</b>	: Not available.	
Bioaccumulative potential Not available.		
Mobility in soil Soil/water partition coefficient (K <sub>oc</sub> )	: Not available.	
Other adverse effects	: No known significant effects or critical haz	ards.

### Section 13. Disposal considerations

Disposal methods	: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and
	sewers.

### Section 14. Transport information

	DOT Classification	IMDG	ΙΑΤΑ
UN number	Not regulated.	Not regulated.	Not regulated.
UN proper shipping name	-	-	-
Transport hazard class(es)	-	-	-
Packing group	-	-	-
Environmental hazards	No.	No.	No.

**Oil:** The product(s) represented by this SDS is (are) regulated as "oil" under 49 CFR Part 130. Shipments by rail or highway in packaging having a capacity of 3500 gallons or more or in a quantity greater 42,000 gallons are subject to these requirements. In addition, mixtures containing 10% or more of this product may be subject to these requirements.

Special precautions for user : Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Date of issue/Date of revision	: 4/8/2021	Date of previous issue	:12/19/2018	Version : 2	7/9

## Section 14. Transport information

Transport in bulk according : Not available. to Annex II of MARPOL and the IBC Code

### Section 15. Regulatory information

U.S. Federal regulations	1	United States inventory (TSCA 8b): This material is listed or exempted.
		This material is classified as an oil under Section 311 of the Clean Water Act (CWA)
		and the Oil Pollution Act of 1990 (OPA). Discharges or spills which produce a visible
		sheen on waters of the United States, their adjoining shorelines, or into conduits leading
		to surface waters must be reported to the EPA's National Response Center at (800)

424-8802.
